CHC105 Inductory Craft Skills Syllabus

Course Information

Credits: 3
Campus: Washburn Institute of Technology
Address: 5724 SW Huntoon
City/State/Zip: Topeka, Kansas 66604
Office Fax: 785-273-7080

Description
Introductory Craft Skills is required for all students entering the Carpentry program. The intent if this course is to introduce the students to the construction trades. It is very important for every student to learn the proper way to conduct themselves while in the shop or on-the-job site. This course will cover shop and job site safety, tool safety, personal protective devices, protective railings, proper storage and handling of construction materials, and construction drawings. This course will follow the NCCER modules for: Basic Safety, Introduction to Construction Math, Introduction to Hand Tools, Introduction to Power Tools, Introduction to Blueprints, Basic Rigging, Basic Communication Skills, and Basic Employability Skills.

Textbooks

Student Learning Outcomes:
A. Communicate effectively
B. Integrate technology
C. Learn effectively
D. Demonstrate cooperative teamwork skills
E. Apply safety in the workplace
F. Think critically and creatively
G. Demonstrate responsible work ethics

Competencies
00101-09 Basic Safety
1. Explain the role that safety plays in the construction crafts.
2. Describe the meaning of job site safety.
3. Describe the characteristics of a competent person and a qualified person.
4. Explain the appropriate safety precautions to take around common job site hazards.
5. Demonstrate the use and care of appropriate personal protective equipment (PPE).
6. Properly wear and remove person protective equipment (safety goggles, hard hats, and person fall protection).
7. Follow the safety procedures required for lifting heavy objects.
8. Describe safe behavior on and around ladders and scaffolds.
9. Explain the importance of Hazard Communications (HazCom) and material safety data sheets (MSDS).
10. Describe fire prevention and firefighting techniques.
11. Define safe work procedures to use around electrical hazards.
12. Add, subtract, multiply, and divide whole numbers, with and without a calculator.
13. Use a standard ruler and metric ruler to measure.
14. Add, subtract, multiply, and divide fractions.
15. Add, subtract, multiply, and divide decimals, with and without a calculator.
16. Convert decimals to percentages and percentages to decimals.
17. Convert fractions to decimals and decimals to fractions.
18. Explain what the metric system is and how it is important in the construction trade.
19. Recognize and use metric units of length, weight, volume, and temperature.
20. Recognize some of the basic shapes used in the construction industry, and apply basic geometry to measure them.

00102-09 Introduction to Construction Math
12. Add, subtract, multiply, and divide whole numbers, with and without a calculator.
13. Use a standard ruler and metric ruler to measure.
14. Add, subtract, multiply, and divide fractions.
15. Add, subtract, multiply, and divide decimals, with and without a calculator.
16. Convert decimals to percentages and percentages to decimals.
17. Convert fractions to decimals and decimals to fractions.
18. Explain what the metric system is and how it is important in the construction trade.
19. Recognize and use metric units of length, weight, volume, and temperature.
20. Recognize some of the basic shapes used in the construction industry, and apply basic geometry to measure them.

00103-09 Introduction to Hand Tools
21. Recognize and identify some of the basic hand tools used in the construction trade.
22. Use hand tools safely.
23. Describe the basic procedures for taking care of hand tools.

00104-09 Introduction to Power Tools
24. Identify power tools commonly used in the construction trade.
25. Use power tools safely.
26. Explain how to maintain power tools properly.

00105-09 Introduction to Construction Drawings
27. Introduction to blueprints.
28. Recognize and identify basic blueprint terms, components, and symbols.
29. Relate information on blueprints to actual locations on the print.
30. Recognize different classifications of drawings.
31. Interpret and use drawing dimensions,

00106-09 Basic Rigging
32. Identify and describe the use of slings and common rigging hardware.
33. Describe basic inspection techniques and rejection criteria used for slings and hardware.
34. Describe basic hitch configurations and their proper connections.
35. Describe basic load-handling safety practices.

00107-09 Basic Communications Skills
37. Demonstrate the ability to interpret information and instructions presented in both written and verbal forms.
38. Demonstrate the ability to communicate effectively in on-the-job situation using written and verbal skills.

00108-09 Basic Employability Skills
39. Explain the construction industry, the role of the companies that make up the industry, and the role of individual professional in the industry.
40. Demonstrate critical-thinking skills and the ability to solve problems using those skills.
41. Demonstrate knowledge of computer systems and explain common uses for computers in the construction industry.

42. Demonstrate effective relationship skills with teammates and supervisors, the ability to work on a team, and appropriate leadership skills.

00109-09 Introduction To Material Handling

43. Define a load.

44. Establish a pre-task plan prior to moving a load.

45. Use proper materials-handling techniques.

46. Choose appropriate materials-handling equipment for the task.

47. Recognize hazards and follow safety procedures required for materials handling.

Guidelines for Success

Assessment Plan
Assessment is an integral part of the educational process at Washburn Tech and accurate feedback is an important tool in continuously improving the institution’s technical programs. Students can expect to participate in assessment activities prior to entry into programs, within specific courses and following program completion for specific fields of study.

Grading Rationale and Grading Scale

100% - 89% = A
88% - 79% = B
78% - 69% = C
68% - 59% = D
58% & Below = F

40% - Participation = Attendance, Tardies, Work Attire, Textbook, Tools, Behavior, Clean-up
30% - Daily Quizzes & Assignments
20% - Performance Assessments (Individual Evaluations)
10% - NCCER Accrediting Exams

Attendance
Classroom attendance is required. Material missed must be made up with instructor.
Disability
The Special Support Services (SSS) Office is responsible for assisting in arranging accommodations and for identifying resources at Washburn Institute of Technology for persons with disabilities. Qualified students with disabilities MUST register and provide documentation with the office to be eligible for services. New requests for accommodations should be submitted two months or more prior to the date services should begin; however, contact the SSS Office as soon as a need may arise. Depending on the accommodation request, four to eight week lead time may be needed for timely and effective provision of services. SSS coordinates and assist in arranging services it deems appropriate of eligible students on a case-by-case basis.

If you are a student with a disability that may substantially limit your ability to participate in this class and believe you will need accommodations, it is your responsibility to contact:

Special Support Services Coordinator
Phone: 785-228-6356
E-Mail: ssscoordinator@washburn.edu
