Use of Medications During Summer Camp

Medications for students should be given at home whenever possible. Even medications requiring doses three (3) times a day can generally be administered while the student is at home (prior to the start of camp, after camp, and at bedtime). When students require medication(s), during Summer Camp hours, Medication Consent forms must be on file from the parent/guardian and/or physician.

Washburn Tech staff, and/or Summer Camp staff will **not** administer any medication to students, if your child requires any prescription or non-prescription medication during summer camp hours – the following instructions should be followed:

- **Prescription Medication** – Your child must bring prescription medication(s) in the currently labeled prescription bottle or container with the pharmacy label intact, and must be accompanied by a WRITTEN ORDER from the physician. (Insulin will be treated as a prescription medication even though some forms may be obtained over-the-counter). The prescription label and physician's order for the prescription medication must be current (less than one year old).
- **Non-prescription Medication** – Students must bring non-prescription medication(s) in the original manufacturer's packaging, clearly showing the dosage by age, the ingredients and the expiration date. Students will be required to self-administer those medications following the manufacturer's instruction for the medication. A WRITTEN ORDER with specific instructions from a parent/guardian must accompany the medication.
- **Controlled Substances** – such as those medications used to treat ADD, ADHD, or psychiatric behavioral disorders, should be given to the student by the parent/guardian.
- **Over the counter medications** (i.e. Tylenol, Advil) or generic equivalents will NOT be administered by any Washburn Tech employee or Summer Camp staff.
- In the case of a previously identified allergy or any other known medical condition that interferes with participation in the Summer Camp, or requires administration of medication by a qualified professional, arrangements must be made by the parent or guardian.

Use of a EpiPen for the Treatment of Potential Anaphylaxis – The use of epinephrine requires an immediate call to 911 and notification of the parent/guardian. For students with a known life-threatening allergy, parents/guardians need to supply the EpiPen(s).
