

TURN YOUR LOVE FOR CHILDREN
INTO A REWARDING CAREER

Early Childhood Education

WASHBURNTECH
UNIVERSITY

[HOSPITALITY + HUMAN SERVICES]

If you enjoy working with children and families, a career in early childhood might be a good choice for you. Our graduates work in preschools, child care centers or home daycares and focus on the growth and development of children from infancy to six years of age. Use your creativity by developing and modifying ideas to enrich young minds.

LEARNING AT WASHBURN TECH

Our early childhood education program provides training in the processes and principles of child growth and development. Instruction emphasizes social, emotional, physical and cognitive development in addition to support services for children. You will gain hands-on experience by working in the licensed child care center on our campus, Little Learners at Washburn Tech, or another center in your community. Students may earn either a Cert A of 24-credit-hours or a Cert C of 48 credits. Upon completion of a Cert C, you will be eligible to complete a more advanced degree at Washburn University.

JOB AND SALARY OUTLOOK

Employment of early childhood professionals is projected to grow 18 percent from 2020 to 2030, according to the U.S. Bureau of Labor Statistics. Kansas Department of Labor

reports the average salary for an entry-level child care worker in Kansas is \$13.38 an hour or \$27,824 annually. The average is \$16 an hour or \$33,280 annually.

ENTRY REQUIREMENTS

For dual-credit high school students submission of an application, official partial transcript, and consent to enroll form are required. Adult students must complete an application and submit an official copy of all transcripts. Please see an admissions counselor for details.
