Staff

Our center is staffed by early education professionals with more than 60 years of combined experience. Little Learners at Washburn Tech has been in operation for more than 25 years. Additionally, students from Washburn Tech's Early Childhood Professional Program receive a 24-credit-hour technical certificate that is designed to provide training in the processes and principles of growth and development of children from infancy through six years of age. The program places emphasis on social, emotional, physical, intellectual, and support services relating to children.

Little Learners at Washburn Tech is the absolute best childcare/pre-school in Topeka! The teachers and student teachers genuinely love and care for my children and communicate very well with parents. They individualize instruction to meet every student's needs and even go out of their way to find solutions for anything with which a child may be struggling. The snacks and meals are nutritious and healthy, fueling the children with good food during the day. The classroom environment is warm and inviting and provides math, science, writing, and reading instruction. The teachers provide a safe, structured environment for students to learn.

-Jennifer M.

Testimonials

"Little Learners provides a fun and energetic environment for children to learn new skills. Since my son has started Little Learners, he has mastered the alphabet and gained the ability to write his name. The staff is always willing to dedicate time and attention to ensure growth and development."

-Amber Y.

"As a student at Washburn Tech in a very demanding program, it's a relief to know I have Little Learners supporting us through the challenges of going to school. While walking through the halls, it never fails that an Early Child Development student says hi to my son and it makes him feel extra special. The endless communication opportunities to keep in touch allow for confidence in knowing what is going on while you're not there. Parents are kept in the loop all the way down to what the kids are eating at school. Little Learners feels like a family, a family that I'm proud my son and I are a part of."

-Kerry H.
